Department of English Library

Introduction

The Department of English has maintained a library for students since a number of years. The department issues books from the library and lends them to students for as long as needed to encourage them to make their own notes. The teachers guide the students to make detailed notes. This exposes them to the masters of literature and literary theory and criticism. It also inculcates the reading habit in the students.

Objectives

1. To familiarize students to well-known writers and critics
2. To cultivate reading habit among the students
3. To introduce important texts to students
4. To awaken their writing skills through reading books.

Acting Mechanism

We borrow selective books from the library on the credit of the department and keep them in the departmental cupboard. We give it to the students according to their requirements. We also keep and lend some personal books.

Policy

For the smooth conduct of the activities we lend the books to students on the first come first serve basis. The books, once borrowed, have to be returned to the department and only then can another student borrow it. The students from disadvantaged class are given priority at the time lending the books.

List beneficiaries : Year wise the list of students has been attached

Outcomes:

1. Students develop the confidence to make their own notes
2. They are prompted to read more books
3. They learn team work as they realise the others' need for the same book they have taken and return it in good condition as soon as they can.
