

Eco-Holi Report

Eco-Holi Workshop was organised by Science Association cell in Collaboration with the Department of Botany on Saturday, 4th March 2023

Eco-holi workshop began with Introductory Lecture on Plant Pigments & their

sources by **Mrs. Vaishali S. Wankhede, Head of Botany Dept.** Then the

Hands on training of making colours was given by **Mr. Ameer shaikh** from the

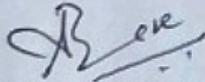

Botany department along with **Ms. Nancy Rathod** and **Ms. Jagruti chaugule**

from Zoology Department.

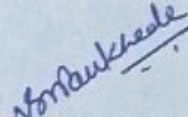

Leaves, fruits, roots, etc. were segregated according to colors and either crushed or boiled or both to prepare an aqueous solution.

This aqueous solution was then mixed with cornflour and dried overnight to get coloured flour which can be used as an eco-friendly substitute for synthetic colors used in the festival of holi.

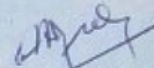

The colors produced from the workshop were sold next day in the college campus which generated some revenue as well as made awareness about the hazardous effects of synthetic colours on environment and health.
